IM02B Environmental Policy

We have established this environmental policy to be consistent with the purpose and context of our organisation. It provides a framework for the setting and review of environmental objectives in addition to our commitment towards the following:

- Protect the environment, including the prevention of pollution
- To sustainable resource use, climate change mitigation, protection of biodiversity and ecosystems
- Conform to applicable legislative, regulatory and compliance obligations
- Continually improve our environmental management system and to enhance environmental performance

As part of our commitment to sustainable growth, AMS is dedicated to integrating Environmental, Social, and Governance (ESG) principles into every facet of our operations. We aim to reduce our environmental impact by adopting eco-friendly practices, prioritising energy efficiency, and supporting the transition to a low-carbon economy. Socially, we will foster a diverse and inclusive workforce, prioritise employee well-being, and contribute to the communities in which we operate through impactful social initiatives. Our governance strategy will emphasise transparency, accountability, and ethical decision-making, ensuring long-term value creation for stakeholders while maintaining the highest standards of corporate responsibility. By embedding ESG into our core values, we strive to lead by example and drive positive change across industries

We have produced environmental objectives which relate to this policy and they can be found in document RO3 Quality, Environmental, Health, Safety and Information Security Privacy Objectives.

This policy is available to all parties through publication on our Company Noticeboard and Share Point.
